Key Insights

■ Location	Delhi mein sabse zyada job opportunities hain, uske baad Pune aur Hyderabad.
■ Top Skill	Java (20%) sabse zyada demand mein hai, uske baad SQL (19%) aur React (18%).
■ Best Month	August mein peak hiring thi (54 jobs) — is time apply karna best rehta hai.
■ Selection Rate	78,762 applicants mein se sirf 156 shortlisted (0.2%) — competition bahut high hai. Companies ko skill-based hiring adopt karni chahiye taaki sahi candidate select ho aur rejection rate kam ho.

Recommendations

For Companies — Skill-Based Hiring

- Skill-based hiring adopt karein — Java, SQL, Python jaise verified skills ke basis par candidates screen karein, sirf degree ya experience ke upar depend na karein.
- 78,762 applicants mein se sirf 156 select hue (0.2%) — iska matlab process mein gap hai. Structured skill tests aur technical rounds se quality hiring ensure hogi aur rejection rate significantly kam hoga.

For Candidates — How to Stand Out

- Java aur SQL pe strong grip banao — yeh dono skills milake 39% market demand cover karti hain, inka combination tumhare shortlist hone ke chances kaafi badha deta hai.
- Sirf resume mat bhejo — portfolio, GitHub projects, aur certified skills add karo. Competition mein 78,000+ candidates hain, isliye practically prove karna zaroori hai ki tum actually kaam kar sakte ho.
